Summary

Final-year B.Sc. Computer Science student seeking an entry-level MERN Stack or Web Developer role, with a growing interest in DevOps. I build responsive web apps with React.js, Node.js and REST APIs, and deploy them with Git, GitHub Pages and Netlify.

Technical Skills

- **MERN Stack:** MongoDB, Express.js, React.js, Node.js, Mongoose, REST API, JWT
- **Languages & Database:** JavaScript (ES6+), Java, C, C++, SQL, RDBMS
- **Frontend:** HTML5, CSS3, Bootstrap, React Hooks, Responsive Design, PWA
- **Tools:** Git, GitHub, VS Code, npm, Vite, Postman, JSON Server, Netlify, GitHub Pages
- **DevOps & Cloud (learning):** Linux, Docker, CI/CD, GitHub Actions, Jenkins, Kubernetes, Terraform, Nginx, AWS

Projects

- **To-Do App** (live): responsive task manager built with JavaScript.
- **Web Application** (live): responsive front-end app deployed on Netlify.
- **Perfume Website** (live): responsive, product-focused showcase site.
- **Personal Portfolio** (live): skills and projects site on GitHub Pages.

Education

B.Sc. Computer Science (Final Year), Puratchi Thalaivi Amma Arts and Science College, Palladam — Bharathiar University

Coursework: OOP · Data Structures and Algorithms · RDBMS · Computer Networks · Software Testing · Operating Systems · Java · C / C++

Languages: Tamil · English
